testimonials

IFJ is an excellent magazine. It stands apart from the rest of the magazines, both in size and quality. I am especially interested in the design section of the magazine. Keep referring to it time and again, whenever I need some important information.

IFJ is a wonderful magazine. The presentation is superb. The stories are very well researched. The separators are very good. In short, the magazine keeps us updated on the industry.

IFJ has evolved over the years to produce a useful platform for the Indian furniture industry. The format is well organized and the advertisement content brings in the latest developments in the furniture and associated industries closer. I particularly like the thematic approach for each issue. Design will be the great differentiator in an industry that is highly cluttered.

Venugopal Eluvangal, DGM - Supply Chain, Marathon Realty, Mumbai

The content published in IFJ is absolutely appropriate and contextual. It does full justice to the projects published. The photographs are very well selected and convey the essence of the project and simultaneously support the text very well.

Ar. Nitin Gupta, Director (Projects), Arcop Associates (P) Ltd., New Delhi

Your magazine has been very educative for us and I thank you so much for that. I regularly read the IFJ and learn about architects who we have never heard about. We see their works which is so amazing and they really shine.

It was a pleasure and honor to read the decorative lighting section in the IFJ. India has much to offer clients in the lighting field, and this was well captured by your magazine. All the best to team IFJ, keep up the good work!

IFJ is a magazine that stands out for its size, it cannot be just forgotten or overlooked. As a magazine it is a blend of both academics of the design and very good get up and printing.
